IN THE DRAWINGS

Please amend FIGS. 1-6 as detailed in the Letter to the Official Draftsperson filed herewith.

A. The drawings were objected to as failing to comply with 37 CFR § 1.84(p)(5).

Initially, please note that replacement drawings have been submitted to the Official Draftsperson. These drawings incorporate the changes discussed below. A red-lined copy of the informal drawings has been enclosed with this Amendment in order to aid the examiner in locating and reviewing the changes that have been made.

The Examiner has pointed out that certain reference numbers mentioned in the text of the specification were excluded from the drawings. It is respectfully submitted that these reference numbers have been added and incorporated into the replacement drawings. Also, please note that certain reference numerals have been changed in the drawings and in the corresponding description in the text of the specification.

For the reasons stated above, it is believed that the drawings are now non-objectionable.
